

Code

```
#include <stdio.h>
#include <stdbool.h>
bool isEven(int x){
    return !(x%2);
}
int main(){
    if(isEven(9))
        printf("Even\n");
    else
        printf("Odd\n");
    return 0;
}
```
